For anyone who wants to measure and manage time more effectively, we have the products:

The Time Timer® is an innovative visual timer designed to “show” the passage of time through the use of a patented red disk that disappears as time elapses.

Unlike traditional timers that fail to make the abstract concept of time concrete, Time Timer’s visual depiction of “time remaining” provides stress-free time management. For example at work, school and home to make every moment count. Time Timer® is an award winning product.

Free Time Timer Desktop App Download – includes a free download of the Time Timer Desktop App.

Included Dry Erase Activity Card – The Dry Erase Activity Card slots into the top of the timer, allowing you to write or draw the timed activity. Extra Dry Erase Activity Cards are sold separately

Increased Visibility – Patented Red Disk is about 15% bigger on each of the Time Timer Original models.

Magnetic and Stand-Alone – Strong magnets allow the Time Timer Original Medium and Large to be displayed on a markerboard, refrigerator, file cabinet, or any metallic material, but it can also stand alone or hang on the wall.
